Executive Summary

August is about to end and currently ICO and IEO projects came back to life and started to raise funds. After a couple of poor weeks, the market has finally raised significant amount of \$57M. Thus, by 25th of August 2019 it is 209 ongoing ICOs where 16 were already completed and only 4 projects have raised funds so far. However, ICO and IEO projects have raised the highest amount since the end of June. 90% of these funds were raised by the IEO project Perlin.

So far in August ICO and IEO market has raised almost \$80M. Regretfully, this is still the lowest amount throughout the year. At the same time, the average rating of projects has slightly increased to 3.6. However, the SATT and Worldopo still have the most amount of ratings, 47 and 38 respectively. Again this week infrastructure has slightly run ahead of cryptocurrency by the funds raised among the industries.

However, based on the results of the third week only the top 4 was allocated by the funds raised and countries that has raised. The Perlin and pukkamex have raised almost 97% of total funds raised of the third week. Thus, Singapore and Seychelles are the leaders respectively among the countries based on funds raised this time.
