Executive Summary

The September is almost over and this report sums up the progress of the third week of the fall that has brought new wave and the spirit into abandoned IEO & ICO market after the summer. This week there were 192 ongoing projects where 5 were already completed and only 1 project has raised funds so far. Thus, ICO & IEO market aggregated the lowest amount of \$8.5M since August. Even the amount of ongoing project has increased the amount of successful projects has declined. However, only seven projects have already raised \$301.5M where the quality of projects has dropped to 4.0. It seems that the IEO & ICO market brings back the positions of the market in fall 2018.

Based on the results of the past week it was possible to allocate the top project and the top country by the funds raised. Thus, DIPChain ICO has raised \$8.5M that is 100% of all funds raised during this week. Therefore, the Singapore is the leader among the countries by funds raised. Thus, the September keeps on going the trend where with the minority of projects raises the most amount of funds since spring.

At the same time the projects Synchronbit and Mindsync obtained the highest ratings of 4.8 and 4.6 respectively. This week cryptocurrency has almost reached the infrastructure's amount of funds raised that strongly holds the lead ahead of cryptocurrency and banking by the funds raised among the industries.
