Thank you for choosing ICObench and we are looking forward to your feedback.

Executive Summary

This reports presents the cumulative statistics of two weeks of the November since the second week did not raised any funds. Regretfully, the IEO & ICO market's performance took over the October's abandoned performance. Overall, for the past two weeks, it was only raised \$4.6M. There were 21 projects completed for the past two weeks where only 5 projects have raised funds. In short words, the market in November keeps on going down and breaking the lowest historical values. Even though the raised amount of \$4.6M for the past two weeks is not as low as it happened before. However, on monthly scale November has raised \$19.1M that is at least five times lower than October has raised. In addition, since only one week has left in November, it is hard to believe that the market will catch up with previous months in terms of amount of funds raised.

However, the average rating has jumped to 4.2 and reached new high level since the beginning of the September. Based on funds raised the top-5 for the countries and projects were allocated. Thus, LifeTask is the leader of the biweekly top-5 with its \$3.9M. The second place is taken by MediLives IEO with \$500k. Therefore, based on the projects that raised funds Malta and UK are undoubted leaders in the country top. At the same time the projects DACX and SaTT obtained the highest ratings of the week, 4.8 and 4.6 respectively. However, Satt an Worldopo are still on top by the amount of ratings over half a year. They are holding the historical highest numbers of overall amount of experts' ratings.
